Dr. Shah will discuss methodology of evaluating a child presenting with chest pain for possible cardiac etiologies (particularly those that put the child at risk for sudden death), review the epidemiology and common causes of sudden cardiac death, and describe normal vs. abnormal EKG findings typically seen in pediatric patients with chest pain.

Target audience: Pediatric and Adult Acute Care Providers (urgent care/emergency medicine), General Pediatricians, Physician Assistants, Nurse Practitioners, Nurses, Medical Leadership

Accreditation Statement:

The PM Pediatrics Management Group is accredited by The Medical Society of the State of New York to provide continuing medical education for physicians. The PM Pediatrics Management Group designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
